GOHSEP Tropical Weather SITREP August 24, 2017
As of 8:00 p.m.

State EOC Activation Level: Level III
State Declaration Proclamation Number 104 JBE 2017 State of Emergency – Tropical Storm Harvey

Tropical Weather Outlook:
The National Hurricane Center is monitoring Hurricane Harvey and one (1) other disturbance in the Atlantic and Gulf of Mexico regions. Please monitor your local National Weather Service for the latest updates.

Disturbance 1
A trough of low pressure over the Florida Keys is producing disorganized showers and thunderstorms. Development of this system is possible over the next few days before it moves northeastward over the western Atlantic before it merges with a front. Regardless of development, very heavy rainfall is possible over portions of the Florida peninsula during the next few days.
