Baton Rouge—President Donald Trump has approved Gov. John Bel Edwards’ request for federal assistance related to Tropical Storm Marco and Hurricane Laura. Gov. Edwards submitted the pre-landfall emergency declaration to the President and the Federal Emergency Management Agency on Saturday, August 22.

“I would like to thank President Trump for his quick approval of federal assistance for Louisiana and for pre-positioning FEMA assets and other federal support for our state during this unprecedented weather event,” Gov. Edwards said. “We’ve never seen two hurricanes hitting the same state back to back within 48 hours, as is anticipated in the coming days in Louisiana. At the same time, we are responding to the COVID-19 pandemic, which makes the prospect of evacuations, search and rescue and mass sheltering complicated and difficult. We will work alongside our federal and local partners to manage this unique and challenging group of disasters.”

FEMA is authorized to provide Public Assistance, Category B (Emergency Protective Measures) limited to direct Federal assistance and reimbursement for mass care including evacuation and shelter support; the parishes of Acadia, Allen, Ascension, Assumption, Beauregard, Calcasieu, Cameron, East Baton Rouge, East Feliciana, Evangeline, Iberia, Iberville, Jefferson, St. Bernard, St. Charles, St. James, St. John the Baptist, St. Martin, St. Mary, St. Charles, Terrebonne, and Vermilion.
