GOHSEP DAILY OPERATIONAL REPORT 21 November 2011

As of: 1530 Hours

STATE EOC ACTIVATION LEVEL: Level 4 (Normal operations)

1. TROPICAL WEATHER UPDATE:

As of 1230 hours 21 November 2011, NWS/NHC is reporting on the following tropical feature in the Atlantic-Caribbean-Gulf of Mexico basin. THIS SYSTEM IS WILL NOT POSE A THREAT TO LOUISIANA.

A broad area of low pressure is located about 875 miles northeast of the northeastern Leeward Islands has become more concentrated. Satellite data indicates that winds are near gale force though the circulation is not well defined at this time. Environmental conditions are marginally conducive for additional development and this system has a 60% chance for acquiring subtropical characteristics before it moves over cooler waters in a couple of days as it moves north-northeastward then northeastward at 10-15 mph.

More information can be accessed from The National Hurricane Center: http://www.nhc.noaa.gov/

2. STATE WIDE EVENTS:

Statewide Parish Burn Ban

State Fire Marshal H. "Butch" Browning and Agriculture and Forestry Commissioner Mike Strain lifted the statewide burn ban as of 11 November 2011.
