EPA Grants Louisiana Partial Fuel Waiver Request<br />

BATON ROUGE, La. -- Today, Lisa Jackson, Administrator of the U.S. Environmental Protection Agency (EPA) in a letter to Governor Bobby Jindal, granted a partial fuel waiver requested yesterday by the Louisiana Department of Environmental Quality (DEQ), which will make it easier for distributors to keep the state's supply of fuel available as it responds to Hurricane Isaac.<br />

This waiver will enable Louisiana refineries in 14 parishes the latitude to utilize slightly higher Reid Vapor Pressure (RVP) fuels from today until September 6 in order to assist with the shortages currently being experienced as a result of the evacuation due to Hurricane Isaac. Since the majority of parishes will be using the same type of gas, it will make it easier for fuel distributors and gas stations to keep gas at the pumps.
