Baton Rouge, La. - The Louisiana Department of Environmental Quality encourages residents in areas affected by Hurricane Isaac to collect trash and debris and place them curbside for proper disposal.

Household chemicals can become hazardous in storm-damaged homes. Examples of materials that may need special disposal or recycling include electronics, batteries, computer hardware, paint, cleaning products, solvents, and lawn and garden products. Materials should be sorted curbside to help expedite clean up efforts.

Segregate all wastes generated into five categories:

Vegetative yard waste (tree limbs, leaves, etc.)

Household chemicals, paint, herbicides, pesticides, caustic and flammable liquids (keep these items separated and in their original containers)

White goods (refrigerators, washers, dryers, stoves and similar appliances)
